

PET SAFETY TIP

Green Tomatoes *Toxic to Dogs & Cats*

Tomatoes are part of the nightshade family, which also includes peppers, eggplants, potatoes, tomatillos, and ground cherries.

While ripened fruit is considered non-toxic, green tomatoes contain solanine which, in large amounts, can lead to toxicity.

Symptoms include:

- Vomiting
- Diarrhea
- Lethargy
- Weakness
- Confusion
- Dilated pupils
- Depression
- Increased heart rate
